Convention hall listing and management software for Kerala venues.

THE PROBLEM

Most convention halls still run on registers, Word and Excel

Missed enquiries

Families call hall after hall to ask if a date is free. Miss the call and they book elsewhere.

Double bookings

One date lives in a register, a calendar and someone's phone. Clashes show up too late.

Typed three times

One booking becomes a register entry, a Word receipt and an Excel invoice.

Month-end rush

Cash, UPI and bank advances are rebuilt by hand into the statement and GST returns.
